

# ENTIRE MARKET HAS PROFITED BY RECENT RALLY

SUDDEN ADVANCE IN BELMONT  
WAS FOLLOWED BY RISE IN  
OTHER STOCKS

The recent rally in Tonopah mining stocks is discussed by the Investor writing in the New York Mining Age, in a recent issue. The article, which follows, points out the tremendous earning capacity of the Belmont company, together with favorable mention of the remaining local securities:

The rally witnessed in the Tonopah and Goldfield markets during the past two weeks has been of the right kind, and it shows that as soon as the proper amount of buying power is started the bears are quickly run to cover. Six weeks ago it seemed impossible to make any impression on the list of quotations as the shorts were forever present in the market, and they seemed to have the right of way constantly. Last week, however, brought about a very radical change, and under the leadership of Belmont, which advanced rapidly from 7 1/2 to 9 1/4, the rest of the Tonopah list made splendid headway. It is extremely interesting to note that during November the net earnings of the Tonopah Belmont company ran up to \$195,000, or closer to the \$200,000 mark than they have ever been before. It will be remembered that the new mill was built with the view of bringing the earnings up to at least \$225,000 per month, but due to one trouble or another it has been impossible to obtain that result in the past, so that the fact that the mill has actually shown net earnings of close to \$200,000 shows that the management is getting to a point where they ought to be able to raise the earnings shortly without further difficulty.

It is my experience that in all mining camps where a leading security makes an advance, the rest of the shares cannot help but follow, and just as soon as Belmont got started the entire Tonopah list responded. Even the smaller priced Goldfield stocks made commendable advances. Jumbo Extension, for instance, running up from 24 to 35c, while Mispah Extension at Tonopah sold up from 58c to 83c as the result of the opening up of a stringer of ore below the 1000-foot level in this property. Even North Star did better, selling up from 18c to 26c, while Jim Butler, on any Tonopah advance, can always be expected to show some kind of a gain over the market prevailing in it when the market is quiet. Jim Butler is really to the Tonopah market what United States Steel is to the big market, and if this stock can ever be given a permanent earning power so that shareholders can look for dividends regularly from it on every quarter Jim Butler will undoubtedly be the most popular stock of any of the Tonopah group.

# NEW OFFICIALS FOR ODD FELLOWS AND REBEKAHS

JOINT INSTALLATION CEREMO-  
NIES LAST NIGHT FOLLOWED  
BY BANQUET

Joint installation of officers was held last night by Belmont lodge No. 24, I. O. O. F., and Desert Queen Rebekah lodge No. 22. The ceremonies were held at the Butler hall and were attended by a large membership. Following the installation a banquet was served during which the new and the old officers responded to brief toasts.

At the Odd Fellows installation Johnnie Gallagher, district deputy grand master, officiated as the installation official, while Mrs. Hiram Bilyeu, district president of the Rebekahs, served in a like capacity when the new officials of the auxiliary order were inducted in office.

The following were installed by the Rebekahs:

# PREDICTIONS OF THE WEATHER MAN ARE FULFILLED

TONOPAH AWAKES THIS MORN-  
ING TO FIND TOWN COVERED  
WITH WHITE MANTLE

After waiting nearly two months for a snow storm, Tonopah was visited last night with the long expected fall, and this morning the entire district was covered with a white mantle, barely a half inch in depth. The fall was exceedingly light, nevertheless it fulfilled the predictions of the local weather expert who had forecasted snow for the last two days. During the day the flakes continued to fall in a sparing manner but at no time could the district be described as being in the grip of a storm.

It is expected that as soon as the fall ceases the weather will moderate to a sufficient extent to allow the many frozen water pipes to be thawed out by the heat of the day. According to the oldest inhabitants a thaw will follow the storm and if this prediction proves true practically every resident in this city will feel deeply obligated to the weather bureau.

# CHANGES HOME SECURE PERMIT TO BE MARRIED

RHYOLITE RESIDENT FORCED TO  
CHANGE RESIDENCE TO  
COMPLY WITH LAW

When Matt Francis of Rhyolite signed his name to the Goldfield register yesterday morning and then wrote on the line below "Mrs. Wexelberger and daughter," Mrs. Wexelberger and daughter giggled out loud and Francis had to smile a bit himself, says the Tribune.

"She'll be Mrs. Francis in half an hour," said Francis in a stage whisper to the clerk, and then everybody smiled again.

But Francis had some trouble after all. Rhyolite is in Nye county, and hence Francis, under the law, had to get his marriage license in Tonopah, as Deputy County Clerk Rosenthal pointed out to him. But Francis then admitted that he intended to reside in Rhyolite but still was a legal resident of Esmeralda. He swore to this and was given the precious document permitting him to wed Mrs. Rosina Wexelberger.

The ceremony followed and tomorrow they will go back to Rhyolite.

# BREAK AT GAS PLANT CAUSES SOME TROUBLE

POWER CEASES AND FORCES BO-  
NANZA LINOTYPE MACHINE  
OUT OF COMMISSION

Through a break in the pumping apparatus at the gas plant yesterday afternoon, the plant was unable to produce sufficient pressure to fill the mains with their product and as a result machines dependable upon gas for power were forced to suspend. The linotype machine of the Bonanza was included in the list that went out of commission through the lack of heat to keep the metal hot, and excuses were made in last evening's paper.

Through the enforced idleness of the machine it was necessary to use various and diverse kinds of articles to fill the paper and apologies are made for the lack of reading material in the publication. Within a few days a gasoline auxiliary will be connected with the linotype machine and in the future the change can be made from gas to gasoline at a wait of not over an hour and a half.

PARIS, Jan. 10.—Roumania has decided to mobilize its army if it does not obtain within 48 hours satisfaction from Bulgaria in regard to the rectification along her frontier, according to news dispatches from Bucharest, Sofia.

WASHINGTON, Jan. 10.—The right of labor to organize and be exempt from injunction without notice in labor disputes was the basis of the argument by Samuel Gompers before the senate judiciary committee today.

# REBEL AND FEDERAL TROOPS IN BATTLE NEAR MEXICAN CAPITOL

(By Associated Press)  
MEXICO CITY, Jan. 10.—The rebels have disappeared from the hills at Ayotzingo, about 20 miles from here, where a battle was fought yesterday. They left before the arrival of federal reinforcements that were rushed from this city. More than 200 men were killed in the engagement, including federals, rebels and non-combatants. It is also stated that 200 federal infantrymen were routed. The same fate has befallen 100 mounted police.

Chilapa, an important town in the state of Puebla, was taken by rebels who captured three machine guns and 35,000 cartridges.

# ALL TARIFF WITNESSES MUST BE UNDER OATH

CONTRADICTORY STATEMENTS  
ARE GIVEN BEFORE HOUSE  
TARIFF COMMITTEE

(By Associated Press)  
WASHINGTON, Jan. 10.—The iron and steel schedule was taken up by the house ways and means committee when it resumed the hearings of the tariff revision today. Two days will probably be devoted to this action. The committee began today requiring all witnesses to testify under oath because of the many contradictory statements already made.

# SHIP LOSES LUMBER CARGO STORM AT SEA

ENTIRE DECKLOAD OF LUMBER  
SWEEPED FROM BOAT OFF  
MENDOCINO COAST

(By Associated Press)  
SAN FRANCISCO, Jan. 10.—Four hundred thousand feet of lumber, the deck load of the steam schooner Field, was swept overboard in a fierce storm off the Mendocino coast while bound from Haindon, Oregon, to this port, where she arrived late last night. The vessel had a number of passengers aboard and for a time terror prevailed.

# GOOD ADVICE TENDERED TURK GOVERNMENT

EUROPEAN AMBASSADORS AD-  
VICE THAT FORTRESS ADRIA-  
NOBLE BE YIELDED

(By Associated Press)  
CONSTANTINOPLE, Jan. 10.—European ambassadors to the Ottoman capital have drawn up a note to the Turkish government which guardedly advises Turkey to yield on the question of Adrianople, but makes no suggestion of pressure being brought by the powers to insure the acceptance of the advice.

(By Associated Press)  
LOS ANGELES, Jan. 10.—An explosion of gasoline vapor ignited from heat from the kitchen stove today fatally burned Mrs. Florence Harris, a bride of three weeks, and her mother, Mrs. W. J. Blevins.

# WANT EQUAL RIGHTS WITH MEN TO DRINK

DENVER, Jan. 10.—The members of the Colorado Equal Suffrage league decided last night to enter a vigorous protest against the passage of a bill pending in the city council, which provides that unmarried women shall not be served liquor in cafes. Their contention is that women have the same right to drink alone as men have, and that in justice, should the bill pass, men should be denied the right to liquor unless accompanied by women.

# TONOPAH HIGH MEETS GOLDFIELD TOMORROW EVE.

BASKETBALL TEAMS WILL PLAY  
IN SISTER CAMP FOR SOUTH-  
ERN CHAMPIONSHIP

The students of the Tonopah high school are quite pleased over the announcement that the crimson and white will play its old rival, Goldfield high, in the neighboring camp on Saturday night for the championship of southern Nevada. For some weeks the managers have been trying to arrange this game and, now that it is an assured thing, there is quite a little interest aroused both in Goldfield and here.

The Goldfield management has granted the request of Tonopah that the periods be four ten-minute quarters. This action is taken because of the fact that Tonopah players have been obliged to secure their practice in some other place than a large hall. The boys feel, however, that they will give their rivals a hard contest and it is expected that a number will make the trip from this city. The game will start at 8 o'clock and dancing will follow for two hours.

# COMMISSIONERS ARE OPPOSED TO CHANGING ROAD

BOARD SPENDING TODAY IN  
DRAWING VENIRE OF 500  
NAMES FOR JURY DUTY

There will be no change in the road to Manhattan east of Tonopah and in the vicinity of the Halifax mine, according to the board of county commissioners after spending an entire day in discussing the proposition. Considerable complaint has resulted lately through water and slides from the Belmont mill cutting deep furrows in the road and on this account it was advocated that the thoroughfare be changed to higher ground.

In refusing to sanction the change the commissioners declared that the move would result in a heavy expenditure and as the road fund was about depleted the county would not be justified in contracting for the additional expense.

Today the board is drawing a venire of 500 persons for jury duty this year. The task will require practically the entire day as frequent interruptions are occasioned. It is probable that the board will adjourn tomorrow.

# FIRST ARREST IS MADE BY NEW POLICE FORCE

DRUNKEN INDIAN PROVES TO BE  
ONLY LAWBREAKER IN  
FOUR DAYS

Although the new guardians of the peace of Tonopah have been in office for four days, it was not until last night that the first arrest by the new regime was recorded. Corporal Welsh of the night force acquired the honor of making the first pinch, and his victim was a Plute Indian who had imbibed freely of the forbidden white man's booze. The Indian was about loaded to the guards and considerable trouble was experienced by the officer in dragging his charge to the bastille.

The prisoner, after a night in solitary confinement and away from the tempting liquor, was completely sobered this morning and when he was released by Chief of Police Evans, after a warning had been issued as to a repetition of the offense.

# NEW COMPANY FILES INCORPORATION ARTICLES

Articles of incorporation were filed with County Clerk Robert G. Pohl today by the Willow Creek Mining company, which has its principal place of business in Tonopah. F. K. Pittman, E. J. Trenwith and William Forman appear as the incorporators. The company has a capitalization of \$1,000,000 with the same number of shares at a par value of \$1 each. According to the articles the entire subscription of stock has been taken by Zeb Kendall.

# CONTINUANCE GRANTED IN TIME TO PLEAD

Sam Jellich, who was indicted on a charge of gambling and brought to Tonopah under arrest Tuesday, having been arrested at Rhyolite where he was working in the mines, was arraigned in the district court this morning. His plea was continued until January 20 when the remaining six defendants, indicted under the same charge, will also enter their pleas.

# LEASE SOLD AT ROCHESTER CAMP FOR BIG SUM

WITH ONE EXCEPTION IS BIG-  
GEST TRANSACTION OF ITS  
KIND IN NEVADA

A special dispatch from Lovelock to the Reno Journal says: A. A. Codd, University of Nevada regent and a resident of Reno, today closed the deal for the purchase of lease No. 2 on Crown Point and lease No. 1 from E. O. Swan, W. I. Wilson and J. C. Foster. The price was \$30,000. According to the agreement, the deal was bound over by a payment of \$8000. In four months \$10,000 more is to be paid and at the end of 11 months \$12,000 more is to be paid.

With the exception of the Stall lease at National, this is the biggest price ever paid for an undeveloped lease in Nevada.

The property leased is a block extending 300 feet along the ledge and 300 feet on each side of it. Two distinct leads are included within the side lines. On the main ledge sampling over the vein, which is from four to six feet wide, gives values of from \$30 to \$50 a ton.

Under orders from Codd work began today developing the property. It is planned to catch the main vein at a depth of 125 feet by means of a tunnel 90 feet long. Three shifts of miners are at work and it is expected the ledge will be struck in three weeks. L. M. Louis, an expert mining engineer formerly associated with Malcolm Macdonald in the development of the Round Mountain mine, is in charge of the work. The lease will be incorporated shortly.

No shipping of ore is intended until the tunnel is completed when it is expected the better grade of ore for shipping will be found.

Development of the camp is going on daily and all the facilities of a modern town will soon be accessible. Telegraph poles are already in place from Orona to Rochester and the work of stringing wires is proceeding from each end. Telephone connection was had between Upper and Lower Rochester today and it is expected communication may be established to Orona in three or four days.
